

Computer Club

The Carriage Manor Computer Club enjoys the use of nine computers which are all networked and have access to our wireless internet. You can access your email, send email notes, and search the internet with ease. There is one scanner and four printers available for use.

The Computer Room is available to all residents. Membership is \$10.00 per year per person. Non-club members can also use the computer room for a small fee, for each use. The room is maintained and monitored by volunteer members of the club. These volunteers are available to help with basic computer needs.

During the winter months, the club organizes and provides various classes such as Computer 101 (basic computer skills), Excel (spreadsheets), Photo Editing, MS Word (word processing). Other classes may be available depending on demand.
